

## **TOLEDO IS WAITING FOR US,** **FROM 27 TO 29 MARCH, 2014**

Toledo is, above all, an incomparable setting, a perfect scenario to host our event. The city of Toledo, a historical UNESCO World Heritage Site, is at the same time, a dynamic city, constantly growing, university center and capital of Castilla - La Mancha

The Historic City of Toledo is listed on the Official List of the World Heritage Property Site within the "Cultural Property" since 1986 for its scenic values, its geographical environment, the engagement of the river, the Cigarrales, Vegas and viewpoints. Its location is as original as Venice or Bruges.

Known as the City of Three Cultures, Toledo is a meeting place for history and tradition. A throughout its long history, Toledo has always been known as the City of Tolerance and the City of the Three Cultures, with the coexistence of Jews, Muslims and Christians. The city was never clearly divided into neighborhoods of each of the religions, but there are areas of greater influence of each.

Sightseeing Toledo is like feeling ancient dialogues under your feet, wrapped by the fantasy of each corner, by a magical urban landscape, scenario of relevant pages of history and recalling legendary names. Meeting in Toledo is enjoying something very few cities hold: a combination of Christian, Jewish and Islamic prints, set in a monumental and unbeatable natural site.

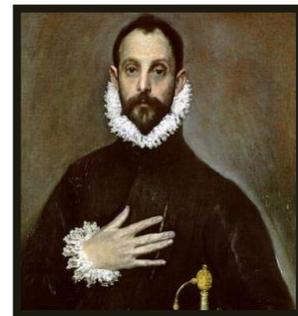

Definitely, a perfect city, waiting to be discovered...again.

In 2014 it is necessary to give a new value to cultural property that holds a universal city like Toledo. **The commemoration of the fourth centenary of El Greco** has been declared an event of exceptional public interest, moment in which Toledo will pay tribute to Domenico Theotocópuli in the city that best preserves his mark, will move forward to a better understanding of the artist and his work, and will enrich the identity of Toledo promoting its relationship with El Greco

And the APDPE will be there in the year in which Toledo will tribute to its most universal inhabitants and his figure and paintings will shine again. The fourth centenary of the death of El Greco will prove to be an event of great cultural, social and economic dimensions that transcend the walls of Toledo.

Under the unique setting of the city of Toledo, we have an opportunity to address, first hand, what is supposed to be, by then, the new rule governing the private security. Yes, it will be the star of the **Congress**, which is expected, at that time, to be the recently approved **Private Security Law**, lack of originality in the subject but aware of the interest it generates, we will have the "parents of the child" who, for sure, may clarify certain issues and guide us towards the subsequent regulatory development

**iiWe are looking forward to welcoming you!!**
