

EUROPEAN SECURITY & SAFETY MEETINGS

MAY 11 & 12 2011

The Security and Safety Business Convention

LYON - FRANCE

www.esmeetings.fr

Co-organised by :

With the support of :

- In 2011, ABE, Europe's premier business convention organizer, and Eurosatory, the worldwide leader of terrestrial and aerospace defense and security, are joining forces to bring you ESM.

"For its 6th iteration, ESM is being held in Lyon, a city known for its image, dynamism and international openness."

ESM is the exclusive European convention that brings **together the world's best experts**, contractors and clients for targeted and preplanned one-on-one meetings, all in one convenient location.

Now is the time to discover **the ultimate in risk management and prevention solutions**, as well as **state of the art technology** to help protect both man and property.

To participate in ESM is to...

- > Dive headfirst into the heart of prevention issues
- > Strengthen your professional network
- > Preview firsthand the latest innovations in risk management

A business accelerator in a growing market.

Faced with new security problems including: delinquency, crimes against man and property, trafficking, natural disasters, industrial espionage and terrorism... States, the public service sector, and also industrial and service enterprises seek security solutions. ESM addresses these modern issues by connecting clients with public and private contractors.

- **EXHIBITORS' AREAS OF EXPERTISE INCLUDE**

- Electronics / Information (communications, surveillance, access control)
- Mobility (land, sea and air)
- Engineering – Training – Services
- Arms – Munitions
- Optics – Optoelectronics
- Textiles – Special Equipment
- Domain-specific Technologies (natural disaster management, logistical support, detection...)

see
discover
understand

Taking part in ESM also allows you to be involved in dialogues between suppliers, business advisers and buyers while actively participating in conferences.

2 full days of workshops and roundtable discussion.

> to better understand the current state of the market: national and international regulations, new technologies, expertise needs, current research and development.

● **CONTRACTORS AND PROJECT LEADERS** COME FROM MANY SECTORS, INCLUDING

- Crisis management organizations
- Civil Security
- Police – SWAT – peace maintenance
- Public security – personal security
- Counterterrorism, special forces
- Protection of industrial and sensitive sites
- Petroleum and gas
- Transport security
- Airport and port security / border control
- Road safety
- Bank and fiducial security
- Prison management
- Anti-trafficking
- Economic intelligence
- Data and communications / systems protection

● The *abe* concept :
How to participate in
Preplanned and targeted meetings.

- 1 Exhibitors should complete the presentation form on behalf of their company, noting their technical and commercial competencies. Contractors should do the same, noting instead their needs and research focuses.
- 2 As a participant you will be catalogued 3 weeks before ESM. This catalogue will group the presentation lists of exhibitors and contractors participating in the business convention, as well as the workshops and conferences.
- 3 Study the catalogue and choose the businesses with which you wish to be acquainted, and also the workshops and conferences you wish to take part in.
- 4 Submit your choices to us so we may inform the respective contractors for validation.
- 5 One week before the event, you will receive your personalized, optimized and targeted agenda (workshops and conferences included).
